SUN

"There's as many atoms in a single molecule of your DNA as there are in the typical galaxy. We are, each of us, a little universe."
Neil de Grasse Tyson, Cosmos

OUR SUN IS A STAR. OUR GALAXY IS CALLED THE MILKY WAY. GALAXIES ARE BILLIONS OF GALAXIES IN THE UNIVERSE.

PLUTO WAS DISCOVERED AS A PLANET IN 1930 BUT DEMOTED IN 2006.
